BRI! IAN GAINS AFTER THE WAR.

SIR ALFRED MOND AND THE TRADE OUTLOOK.

State Help Needed For A Frw Industries

It is vital that there should be as, little unemployment as possilded In the end there is very litt's doubt that the country will be in a better position than below

In these words Six Alired Mond, M.P., who probably knows as much about the business world as anyone, on Aug. 13 answored a " Daily News " inquiry adto the probable effect of the war on Prifish commerce and industry.

"There is bound to be some unemplayment," he said, " andaits will be necessary for the Government to take steps to keep certain industrits going, but after a short while business will receiver, and in the call there is very little doubt that the country will be a bester position than before the war.

" Already the decision of the Mickernment to back bills is having a goal , effects. About 11,000 timplators were idle because bills could not be discount ed, but there will probably the middle from a second By Order culty now in getting them back to work.

" Probably." Sir Alfred went on. " in. some ences it will be necessary for the Covernment to back stock—say up to 80 per cent .- so that the banks can advance money to keep manufacturers going. It is vital that there should be as little dinemployment as possible, and if the Government can go, as they did; to the rescue of the banks, there seems to I no reason why they should not back the mian afacturer.

"Only a relatively small number of industries will require such backing, and is would be far better to keep the men at work than to give them relief when their employer has been competted 'to

discharge them. "That English commerce will be in ir better position than ever after the war seems to me to be obvious." Sir-Alfred Mond declared. "It is clear, for one thing, that a good deal of Germany's "export trade will be diverted to us. Already several English firms have reecived inquiries from buyers who have previously deals with Germany, and there should be no difficulty in retaining

such trade. " It is probable, too, that France will in more inclined after the war to trade with England than with Germany, and any decline in our exports to Germany may be more than counter-balanced.

" My own impression is that if the Tel. No. 1406." Government, through the banks, take steps to back industries temporarily in med of aid, there will be nothing to worry, about. But it is necessary that the possibilities of the position of labour should be roulised, and that every step should be taken to keep factories and workshops going.

"I confess that I had hardly dazed to hope that the business world would he in so comparatively good a position after a week of European, war. After reading so many books, and articles prophesying that the whole trade of England would be held up for mouths, and that no food could come in, in the event of such a war, it is almost impossible to believe-so comparatively normal are conditions—that a war is going on at

' A cross between a cloakroom check and a lottery ticket " is the description given of the new English £1 note. Compared with it the Scotch bank note looks liks a masterpiece by Rembrandt.

(From the "Daily, Telegraph" of Aug. 20 to Aug. 25.)

WATERWORKS DANGER.

Whilst guarding the waterworks at Linelado, Bucks, early yesterday. (Aug. 19) three Warwickshire Territorials discovered a man climbing the reservoir fence. "The soldiers fired twice, and chased atranger, who disappeared across the field. A paper packet was found in the reservior, and has been sent to the county analyst.

CARRIER PIGEONS SHOT.

The telegraph wires were cut in two places between Dover and Folkestone on Tuesday night, (Aug. 18) apparently by Gorman sympathisers. The damage was discovered by Beden Powell Scouts, who were patrolling the road and found the wires down. They reported the matter to motorists who were coming from Folkestone, and these in turn made a report to the authorities on reaching Dover.

Two pigeous, carrying messages in cypher, were abot at Aldeburgh (Suffel) yesterday (Aug. 19).

BRITISH PAPER MONEY.

Although they have been in circulation but a little overa week, the £1 potes, isoue by the Treasury have met with a very 10.5 kindly reception by the public, and have been very freely distributed. Bankers and others whee have a large connection with foreign notes of all descriptions draw a very unfavourable comparison between the 20f note issued by the 1 French G vernment in connection with the war and the £1 note of Great Britain. The latter, printed on ordinary stamp paper, looks a very poor production against the French article, which is artistically lithographed in both sides, and is somen to involves a ponsity of

what larger. It bears the stern intimation sin the face of it that forgrey of the servitude for life. The English note bears no such uncription, but forgery of it would be antemount to counterfeiting a coin, and render the forger liable-to penal servitude for a long period. The 10s note, just issued, is a much more artistic production. and is much wanted, as it is stated there a senecity of silver. About £1,5' 0,000 will be issued to begin with... From behind the milings of the school playground they greet the crowd gaily, onto of them, Alentians, calling out, Vivo la France." They have explained in broken French that they were misled by the accounts in "the German papers and have asked for French newspapers, which they read with avidity. Other Graman prisoners reached Nantes yesterday. It was noticed that one of them were a French kepi and had pinned cockades and Tricold flags to his German uniform. At intervals he shouted " Vivo la France! A TALKATIVE HUSBAND.

The Petit Parisien has a curious and rather amusing instacted of the discretions of the military authorities at the present moment. Nesterday (Aug. 23) a young Parisien woman received at her house a letter, on the envelope of which she recognised the handwriting of her husbuild now serving at the front. She eartly torn open the envelope, only to find that it was empty, but in the corner of the envelope, in a hand quite unfamiliar to her, was written the Incomimessage " Madame, your husband" quite well, but he is too communicative, The young wife understood that her husband's letter must have been intercepted by the military authorities.

ALLEGED MONEY LENDING.

In the Court of Summary Jurisdiction Chinese Society, Victoria, B.C. today before Mr. Justice Compertz, Kam Hon Sang sued Hui Shing Shi for the return of \$600 which the plaintiff said had lent to the son of the defendant and which was guaranteed by the defendant in written document.

Plaintiff was represented by Mr. Russ (of Messes Gardiner's office) and Mr. Mason (of Mesers D'Almada and Mason) appeared

for the defendant.

Mr. Russ said the plaintiff was quite a wealthy young man and had recently arrived in the Colony from China. He had been lending money to the defendant's son for some time. The son carried up business at that time and had since absconded. Plaintiff when he came from anton was in a babit of staying at the defendant's house and that was where he got to know his son. He lent a great deal money to the defendant's son, which was not paid back. The son asked for the loan of the \$600. The plaintiff lent it as he thought that if he did not do so the business would probably close and would not then get any of his money back. As he had received back none of the previous loans he had suggested that the son's mother should sign a guarantee,

which she accordingly did. Answering his Lordship, Mr Russ said that that was what he was soing on. Plaintiff said he came from Canton about the time that Chan Kwing Ming was the Viceroy. Before the document was signed the plaintiff had lent sums amounting to

\$1900 and he had received nothing in Mr. Blason intimated that the defence was an absolute denial, and said the defendant knew nothing of the loan or the guarantee. There might have been transaction between the plaintiff and the son but that did not concern the defendant.

Defendant said that she had never guaranteed the \$600 and had never seen the document produced. His Lordship gave judgment for the defendant with costs.

Lönbon, Sept. 28. A descriptive statement from the British Headquarters, dated the 25th inst. says:

For four days there has been a comparative full in the operations, accompanied by a spell of fine weather. The nights now are much colder. The arrival of fresh troops enabled the men who had been in the firing line some time to be relieved. Several units consequently received their hogtism of fire.

ERITISH YOLUNTEERS FROM SHANGHAI.

Immense Enthusiasm'on the Franch

'Amid scenes of the wildest cuthusinam the eleven men who have volunteered for sorvice left Shanghai yesterday, says the N.C. Daily News of the 28th inst. The French bund was lined with people! in fact such a crowd has not been seen in Shanghai for a long time. The departure of the tender Whangpon for the M. M. S. The men who have so gillantly answered locally, and nearly all are prominent athletes. They can both ride and shoot, and it is their intention to join up with some regular horse, or, failing this, to offer thamselves for any service which may be allotted to them by the War Office.
